

Press Release

Launch of the S-ACCESS project

July 12th, 2021

On the 12th of July 2021, the partners had a virtual meeting to launch the S-ACCESS project!

The meeting started with a presentation of the project: strategic and operational challenges behind, expectations, impact on the European railway industrial ecosystem and beyond.

All the partners presented the current internationalisation services to their members and how they are organised, the target countries where they mostly operate as clusters, and their best success stories in internationalization concerning SMEs.

Then, the project coordinator, Veronica Elena Bocci from Ditecfer, presented the project organisation and tasks.

The partners were pleased to welcome and meet the project officer Giovanna D'Addamio.
