

Press Release

Meet the Canada buyers.

September 12th, 2023

This event will help the SMEs to listen directly from Canada buyers their railway tender planning, their market needs, current railway and future railway projects, the bid requirements, and conditions they use... to improve the European company's readiness for applying.

This event is a preparatory step before the Canada mission in October (3-6) including meetings and visits with Railway Public Procurers and Private Procurers of Canada.

This event will take place online on the 12th of September 2023, from 4.00pm CEST to 7:00pm CEST.
